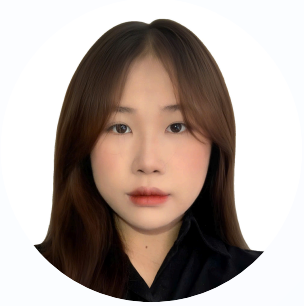
portfolio

Thu Duc, Ho Chi Minh City



Career Objective

Frontend Developer Intern with hands-on experience in building responsive web applications using React, JavaScript, TypeScript and TailwindCSS. Familiar with integrating RESTful APIs and contributing to user-friendly interfaces for real-world products. Seeking to strengthen frontend development skills and deliver practical, maintainable solutions.

Projects

Healthcare Clinic Management System

03/2026 – Present

Frontend-focused Fullstack Developer / Business Analyst

Tech Stack: React, TypeScript, Node.js, Express.js, MongoDB, TailwindCSS

- Built responsive admin dashboards for managing patient records and appointments using React and TailwindCSS.
- Managed UI state and handled API data using React Hooks with Axios integration.
- Structured reusable components following component-based architecture for better maintainability.
- Implemented role-based access control (RBAC) with JWT authentication for secure access.
- Applied TypeScript to improve code reliability and reduce runtime errors.
